IF you could have exactly the kind of car you wanted, what are the features you would demand?

You would want Performance... stamina to stand long, trying trips.

Then you would want Style, of course—the latest trend in body design—long, low, racy lines—the newest and most modish colorings. You would want the distinction of Body by Fisher.

And you would like a Luxurious car... one with wide, deep cushions that invited rest... with rich and beautiful upholstery and fine interior appointments... one with snug protection against the weather with ease and smoothness of riding. Last, but by no means least, you would demand Quality... substantial construction... refinements such as Four-Wheel Brakes, Air-Cleaner, Oil Filter, Crankcase Breather, Vacuum-Fed Fuel Supply, Safety Gasoline Tank in rear and so forth... dependability at all times and under all conditions! These are the things everyone would like to have in a car... and that everyone CAN have, for the first time in automobile history, at the low cost of the "Bigger and Better" Chevrolet.

The G.M.C. General Motors can deliver a Chevrolet that stands the most convenient and economical way of buying your Chevrolet on time.

POSTER DISPLAY AT PUBLIC SCHOOL

When the ladies of the Lacombe Golf and Country Club offered a series of prizes for the best posters, designed, drawn and painted by students of grades six, seven and eight of the Lacombe Public School, they did a great thing in creating interest in that line of art in the school. We visited the school this week, and after viewing the large numbers, went away with the feeling that the students in the Public School need not take a back seat to any in the west.

The posters were striking in the extreme, and the judges had a hard task. It was not an easy task assigned them and we feel that in awarding the first prize to Billy McKenzie, whose poster, showing a "Pumpkin Headed Old Sam" carrying a golf ball, using a small pumpkin as a tee, with appropriate wording, urging all and sundry to come to the Golf Dance on the 30th, they did right. Bill Belcher's poster, awarded second prize, showed a corner of an old fashioned "Masquerade," and deserved its place. Nancy Lothian, a Grade 6 pupil, was awarded third prize; her design was original, black cats predominating, the lettering well done, and all in all deserved the award.

Black Cats, Witches, Pumpkin Heads, Goblins and phantastic lettering vied with each other in the race for supremacy and it was hard to choose one that was above the other in art work or lettering. The modernistic trend was shown in many of the posters, that trend being towards the "freak" design or lay out, with odd lettering and fantastic designs, and judged by the standard alone, one or two of the exhibits would have been awarded first place.

We do not hesitate in saying that the showing of art in the competition held in Lacombe, would receive the utmost praise any place else in Canada. The Public School here has some budding artists and with more such competitions some real works of genius will result.

WALKER AIRPORT OPENED

Two champions of speed met Sept. 8th and 9th at the dedicatory ceremonies of the new Walker Airport in the Border Cities, Ontario. One claimed the sky as its domain—the other the earth. The aerial speedsters were airplanes that were taking off from the new airport for Los Angeles, Calif., on the International Air Race, one of the longest rides ever started in the Dominion. The other was Studebaker's President Eight Roadster, which just one month before completed the longest and fastest run ever made by any automobile—30,900 miles in 26,226 minutes. The Studebaker was serving in the capacity as official car for the opening of the new airport.

Captain R. H. Soundy, chief pilot instructor for the Border Cities Aero Club, which operates the Walker Airport selected the President Eight Roadster to be used by Ray Collins, who not only supervised the start of the international flight, but conducted the first official Canadian air race, the Essex County Air Derby.

More than fifty planes participated in the two day event, which was the largest meet of its kind ever held in the Dominion. The selection of the Studebaker to act as official car was not only a tribute to the manufacturer of this automobile, but also was a public expression of the high esteem in which the Studebaker Corporation of Canada, Limited, is held in the Dominion. Laird Motors represent the Studebaker Corporation in Lacombe.

Sale of Sheep

The most successful sheep sale in years, was held Wednesday by the Central Alberta Wool Growers Association at Lacombe Fair Grounds. There was a large enthusiastic crowd of buyers present, in spite of the raw chilly weather, the first of the season. All day rain and snow threatened, but not until late afternoon did snow fall, and not enough to interrupt the sale.

The sales surpassed, in numbers and prices those of other years. 1185 head were sold, netting \$14,295.75. The ewes and lambs numbered 1119, and realized an average of \$10.40 each. The following contributed the largest lot of ewes: C. Morehouse, Lacombe, 188 head; McKenzie Bros., 167 head; C. S. Kent, Lacombe, 127 head; Dr. Talbot, Lacombe, 125 head; W. J. Gauld, Brooksley, 111 head; H. F. Fiewelling, Lacombe, 101 head; Geo. Allen, Olive, 66 head; Henry Nagel, Ponoka, 65 head. The highest price paid for ewes went to pure bred Oxford at \$24. In lots, the top price was \$12.50, with 147 in the flock, thought by John A. Smith. Ewe lambs, 88 head lot went for \$10 each to G. K. Wolanski, of Smokey Lake.

The Rams were Graded by Mr. Black of Calgary, before they were judged, and most of them were put in the XXX grade. 51 rams were sold at an average of \$42.58. \$75 was the highest price paid for a Hampshire, contributed by M. P. M. Dau of Three Hills and bought by George Allen, Olive; for an Oxford of Geo. Allen to John A. Smith of Black Diamond; for a Shropshire of H. A. Hamby, of Ponoka to Dominion Livestock branch, Ottawa; A Suffolk of H. A. Hamby was bought by Norris E. Shaw, Lacombe, for \$67.50; J. Sauve, sold Hampshire Rams to I. O. Coverdale, Lacombe; Frank Smith, Knee Hill Valley; S. J. Leader, Lacombe; Ben Sutherland, Delbourne; A. Tatlock, Blackfalds; Joe Hagerman, Ponoka; A. A. Sutherland, Pine Lake. Other Hampshire went from Dr. to Allen; Peter Jamieson, Alton; Allen; G. P. Burns, Blackfalds, to Otto Steel, Eckville; R. Stewart, Home Glen to Steel; Jamieson to Dau; A. Smeltzer, Lacombe to N. E. Shaw.

In the Shropshire Breed: Hamby sold to Dominion Live Stock Branch; A. D. Bower, Red Deer; Wesley Steele, Markerville; F. H. Miller, Blackfalds; W. C. Cripps, Red Deer; M. J. Sawyer, Joffre; C. B. Fackler, Blackfalds; J. Wilson, Jr., Innisfail; to Dominion Live Stock Branch; W. S. Mellis, Rimby; Edward W. Hinkley, Ponoka to Wes. Steele.

Of the Oxford, E. B. Williamson sold to Eugene Marryatt, Alton; F. J. Blundell, Westview; E. B. Green, Donalds; M. T. Howell, Pine Lake; Mrs. Robt. McKenzie, Lacombe; Walter Parlb; Alton; George W. Hand, of Lacombe; Geo. Allan to John Smith; M. T. Howell to Miss Laura Butcher, Lacombe; A. H. Charlton, Delbourne to John H. Smith; G. A. Graham to R. A. Bailey, Bashaw and A. H. Charlton; Paul Flegel, Morningside, to A. Sveinbjornson, Markerville; D. S. Howell, to Smith; G. A. DeGroff, Bentley, to W. B. Cramer, Red Deer.

Of Suffolks, Ben Sutherland, sold to C. Unwin, Lacombe; Hamby to I. Hyvonen, Benalto, and to C. Moorehouse.

Of Ramboulets; W. J. Gauld sold to Hans P. Hansen, Bentley; and to Matt Olson, Lacombe.

Of Southdowns; J. A. Albrecht, Lacombe sold to J. F. Pussey, Red Deer; M. E. Wilson, of the Experimental Station of Lacombe, acted as judge, and gave awards as follows: Shropshire; 1, 2, 3, to H. A. Hamby, Ponoka; Ram lambs; 1 and 2 to J. Wilson, Jr., Innisfail; 3 H. A. Hamby; Champion of this class went to J. Wilson.

Oxford; 1, George Allen, Olive; 2 and 3, 2, Williamson, Alton; Ram lambs; 1, 2, and 3, E. B. Williamson, and also Championship.
Hampshire; 1, M. P. Dau, Three Hills; 2, Peter Jamieson, Alton; 3, Henry Snider, Lacombe. The Championship to M. P. Dau. One of these were of Jamieson's breeding; Ram lambs; 1, J. Sauve, Lacombe; 2, Peter Jamieson; 3, J. Sauve.

Some of the heaviest purchasers were: John A. Smith, Black Diamond, \$2595.76; B. J. Baker, Markerville, \$1150.50; Charles Berry, Lacombe, \$1150; Otto Steele, Eckville, \$1140; George R. Wolanski, Smokey Lake, \$880; Geo. W. Hand, Lacombe, \$660; Geo. Allen, Olive, \$636; James Berry, Lacombe, \$539; P. O. Purce, Wood River, \$508; A. D. Bower, \$782; C. Unwin, Lacombe, \$491; F. J. Pussey, Red Deer, \$377; F. H. Miller, Blackfalds, \$342.

From the purchases, it is evident that many new men are entering into the raising of sheep. One of the reasons for the sale is to encourage and to facilitate this. That Lacombe sale is looked upon as being a factor in the sheep market was seen in the fact that many connected with the business were at sale as observers. The prices at this sale will be reflected in those in those at the succeeding sales. Altogether it was a most satisfactory sale from every standpoint.

GEORGE SHEETS, The Clothes Press; Lacombe

MEADOWBROOK NEWS

Mr. Klido Br., underwent an operation at the Lacombe Hospital, but is now back with his wife at the home of Mrs. Wedlund.

Some of the threshing outfits have moved home and put the machines in the shed for another year.

Joe Long took a load of 29 lambs into town last Friday.

We are sorry to hear that Mrs. Herb Riley was a patient at the Lacombe Hospital, even though it was only for a short time, but we are glad she is feeling better now.

Some Chevys. certainly do leave the yard quelling when the occupant says "good night."

Mr. and Mrs. P. Friswell and family were at John Hubbards' for dinner Sunday, when along came a gang as a surprise party, it being Mrs. Hubbard's birthday.

A very heavy frost, the other night caused trouble in the morning. When the Threshing machines started, the heads of the grain went out through the blower, unfreshed; and threshing had to stay until the afternoon, when the sun had dried the grain.

Rodney Berry who has been in this near neighborhood threshing for his uncle, Mr. James Berry returned home with his machine, having finished with Mr. Berry's crop.

Mr. Joe Mackenzie and Mr. Orval Deatley made a business trip to Ponoka the other day in a car driven by Mr. Andrew Mackenzie. They returned in style on a new tractor.

Mr. Fred Sacks and Mr. Richard Price were visitors at the home of Mr. Henderson last Sunday.

We understand that the Fertile Valley Municipality has bought a caterpillar road engine of their own. This will prove a great help in work on the road, as they certainly can manage the grader, where it would otherwise use innumerable horses.

Steam threshing machines are more in demand than other kinds, when they have a very desirable tankie and we all like to have a chat with him.

We have heard that Mr. Clifton Long has again commenced work on his new bungalow.

Digging potatoes is all the go; using the shovel and using the hoe, bending your back oh, ever so low. Picking potatoes and not very slow, is the song we hear now, as we pass each place and find all our friends in the potato patch as busy as can be. The potatoes are beautiful as to size and smoothness in most places.

The cream truck is still busy, and will continue to be for a while, because the cows were so well pleased at being able pick up in the fields that their thanks in rich milk is almost what it was in the summer.

Mr. Dean Reynolds is improving slowly from his serious illness.

EUREKA VALLEY

Miss Eva Williamson who has spent the past few weeks visiting her uncle

Mr. Albert Robertson, left on Tuesday for her home in Ontario. Mr. Robertson took her as far as Calgary in his car. Mr. Lester Graham and Mr. Lee Graham have purchased Mr. Grouse's farm. We are glad to see they are not leaving the district.

Mrs. Walters, Miss Glenys Walters, Master Tommy and Miss Opal Ryan have left for their home at Abbotsford, B.C., after spending the past seven months at Ryall's.

Mr. O. Mustys has purchased a quarter section of land west of Joffre. Mr. Amos Parks and daughter Dorothy of B.C. are visiting at Marshall Boomer's.

Most of the farmers of this district have finished threshing. The elevators are taking a lot of grain lately. Miss Patton spent the week end at her home in Calgary.

WHY MEN FAIL

Most men who fail in life do so because they are not interested in their jobs. No man who is interested in his work ever makes a failure of things. They become indispensable, in a manner of speaking. The employer they work for, or the community they serve, come to depend upon them for their enthusiasm, their reliability, and their efficiency. Such men seldom have to look for jobs; jobs look for them. The pity of it all is, "and pity 'tis, 'tis true," that most men take such little interest in the work that provides them with their livelihood that they are easily

replaced and seldom missed. No matter what a man works at, he should feel an interest in other things also, as well as the job by which he earns his living. It is surprising how frequently the ability to do other things will prove a source of helplessness to a man when things go wrong. It may be that the fellow who has developed a love of gardening in his spare time finds, when other opportunities of work close down on him, that he has made a job for himself as landscape gardener. The musical carpenter who was a good amateur saxophone player and becomes a noted orchestra leader after fate had driven him from the carpenter's bench is a case in point. Knowledge of how to do things always comes in handy at some time or other.

Take an interest in your work. Keep your eyes off the clock and on your task. In fact, if you have eyes for the work you are doing, the thing you are creating, the process you are carrying on, or the service you are rendering, you will lose the sense of time when you are working and will rather come to feel annoyed that time flies so quickly. There is no hunch in this. Men fail at their jobs because they find nothing in them to hold their attention. Get something to do that you like doing. If you don't like it, make yourself like it. Study it. Find out all about it. Get books that will inform you. Ask others when you don't know yourself; they'll tell you. Have a hobby and

have ideals. You'll never want a job if you will determine to know something just a shade better than somebody else knows it and always do the job in hand a little better than you believe the other fellow would. There is no failure except in not striving.

CODE INSTALLED
This symbol is the identifying mark of a Warm Air heating system installed according to the specifications of the Standard Code. A McClary "Sunshine" Code installed, guarantees 70° of heat for every room in zero weather.

COLD is fine for Polar Bears, but not so good for human beings! A chilly or poorly heated home, for example, is a menace to the health of everyone in the household.

There is only one answer—McClary "Sunshine" Warm Air heating. For real home comfort, for mellow, healthful warmth, no other heating system can compare with it. Like the balmy breath of a June day, the air is kept constantly re-circulated, properly moistened. So unlike the dry heat from iron radiators!

Burns any kind of fuel, the famous "Ventiblast" ring making thorough combustion a certainty. Saves money in actual use and it costs much less to install this guaranteed McClary Warm Air System than hot water or steam systems.

Rev. Robert Laird, D.D., who is to speak in Lacombe on the evening of Oct. 28th, comes of a very distinguished family. His father was a successful teacher and minister in the Maritime Provinces and Ont. His uncle, Laird David Laird, was a prominent official in the early days of the West, being for a time Lt.-Gov. of Manitoba. He made an official tour of the Peace River country in the beginning of the opening of what is now Alberta. A brother was a professor in the Military College, Kingston, but died at an early age, leaving a daughter, who became one of the first Librarians for the League of Nations, in Geneva. Dr. Laird himself is a very attractive speaker, and has a striking personality. He is well known throughout the Dominion, and always has a large audience wherever he speaks. It is a privilege for Lacombe that he has been secured to speak here. He will be at St. Andrew's Church at 7.30 p.m. on Oct. 28th.

Mr. R. Summerville and his mother, who have been residents of Lacombe for some years, left on Sunday for Vancouver, where they purpose residing for the future. Before leaving, Mr. Summerville was presented with a beautiful writing set by members of the congregation of St. Cyprian's Church of England, as a slight token of the appreciation of his unselfish work in connection with the church. For some years Mr. Summerville officiated as organist in a most capable manner, and the congregation is sorry to lose his services, and Mrs. Summerville will also be missed among the church workers.

OUR CREDIT POWER

The action of the British Labor Party in declaring at its recent Annual Conference for the taking over by the country of the Bank of England will serve to draw attention to the great anomaly of the banking situation in Canada. The chartered bank of Canada, regarded as business ventures, are in a peculiarly enviable position. They have had given to them for their continuous use and exploitation, and likewise their own gain, the whole credit power of the country. Credit power is probably the most vital and valuable asset that is possessed by Canada, or by any country, for that matter. The whole fabric of business industry, and commerce rests upon a foundation of credit, without which the every work of the country could not be carried on. Without credit, we should have chaos.

Observe what, by Act of Parliament, do for our banks. A group of men subscribe let us say ten million dollars to the capital stock of a bank, applying for and are granted a charter to carry on the business of Banking in Canada. They deposit the ten million dollars of capital with the Federal Treasury Department and have then privilege of issuing notes to twice the sum deposited. That is to say, their working capital is immediately doubled, so that, while they only require to earn dividends upon ten million dollars, they operate with twenty million dollars as their working capital. Should the people of Canada, acting collectively through their government desire to borrow money, they must go to the banks to which they have handed over this credit power and pay interest on whatever they may borrow; this to the banking institutions to which they have given for nothing the use of enormous sums of money. For it should be noted the banks do not pay one cent of money to the government for the use of the huge sums of money represented by their note issue above the sum of their working capital. It almost reads like a Gilbert and Sullivan opera!

The scheme of a national bank proposed by the British Labor Party would almost seem to be necessary in Canada. Australia already has its Commonwealth Bank, which is a complete success, in spite of the competition of privately owned banks. It seems foolish, speaking but mildly, for the people of Canada to be compelled to pay private banking institutions interest when they borrow from banks represented by paper backed by the Government of Canada. It means always that in handing over this credit power to our banks, we are placing the keys of national life and death in the hands of a comparatively small group of men, who at any time could strangle the nation by the throat and strangle it for their own enrichment. Surely this is a condition that will not permanently obtain.

Here and There

(149)
Brandon's first broadcasting station has gone into daily use, and a studio located there will give grants and stock reports each day, and once a week, in the evening, will broadcast local concert programmes.

A training school for the encouragement of home industries, is being talked of in Winnipeg, following the Folk Song Festival held in that city recently under the auspices of the Canadian Pacific Railway. Montreal, it may be noted, has had for some years classes to teach their native handicrafts to children of foreign-born settlers, who would otherwise be likely to acquire the skills they would have discovered in their own country.

W. N. Beach, a hunter and photographer of wild life who had the unique distinction of finding two different pairs of locked antlers during his career, was a recent visitor to the General Tourist Department of the C. P. R. at Montreal. Locked antlers are very rarely found and one of the two pairs discovered by him are so firmly interlocked that they cannot be pulled apart by two strong men, and to be separated would have to be cut.

"In all my experience I have not previously found so general a feeling of complete confidence in this country and its possibilities as was observed in the cities and districts where we made stops and had an opportunity of talking things over with their representative citizens" was the statement made by E. W. Beatty, president of the Canadian Pacific Railway, who has just returned to Montreal from an eight thousand mile tour over the company's western lines, accompanied by a party of directors and Montreal financiers.

Billing and coining and showing no signs of having their affectionate dispositions dampened by the strain of travel, two cages of Japanese Love Birds passed through the Windsor Station at Montreal recently on their way from Japan to Scotland. Travelling from Kobe on the Empress of Russia and across the Atlantic on the Duchess of Atholl, the shipment of twenty eight Cobalt Budgerigars, as they are also called, are under the protective wing of the Canadian Pacific Express throughout. They were of a brilliant blue plumage, long tailed and looked much like a parakeet.

Imp. Sayings

A Column of Fun and Facts for Lacombe Folk and our Farmer Friends

Cheerfulness is not merely a matter of choice; it is an obligation we owe to those about us. A common attitude of cheerfulness goes a long way toward making any community a worthwhile abiding place.

A Vesset Feed Grinder will grind what you want when you want it and pay for itself in short order.

Eternal Feminine

When a woman can't think of anything else to say to her husband she cautions him not to eat so fast or smoke so much.

Ask us about the liberal purchase plan of the famous Ball Bearing McCormick-Deering Cream Separator, and find out how easy it is to own a pay-for-itself separator.

The best way to make others pay their debts is to pay yours.

The use of McCormick-Deering Tractors has done a great many things for the farmers. With this dependable power they are enabled to do their work in season and to take the greatest possible advantage of favourable weather.

A certain photographer says: "The photographer who is not able to make his camera flatter you had better look for some other job. There's such a thing as carrying truth too far."

If you need a good cultivator or Disc Harrow, get a McCormick-Deering.

Teacher: "How many days in October, Johnny?" Johnny: "Thirty days has September. All the rest I can't remember. The calendar hangs on the wall. Why bother me with this at all?"

This is the ideal time to haul out stable manure. There's no implement that will pay itself quicker than a Manure Spreader.

The Reason The McCormick-Deering is the last word in Manure Spreader construction. It pulls easily with two horses and is a real wide spreader, too.

AN AUTUMN STORM

Ploughing the ocean.
Furrows wide and deep,
Surging by the rock beds,
Rousing pools from sleep.
Whirling the shallows
To a lengthening swell,
Beating on the shingles
Like a funeral knell.

Splashing on the sand-dunes,
Sporting with the spray,
Teasing high the eddies,
And racing down the bay,
Tearing too the snowy sail,
Booming at the bar,
Darting on the pier head,
Spitting rope and spar.

Sweeping through the valley,
Flowing o'er the plain,
Driving on the road-way,
With a watery train—
Falling from the tree tops,
Soaking all the leaves,
Blowing o'er the stubble field,
And drenching the sheaves.

Drifting across the meadow,
Spraying the flowers;
Swirling by the bushes—
Autumn's stormy showers,
Forcing peaceful shallows
To hurry through the glade,
Gurgling by the boulders
And rippling in the shade.

Then a lull and quietness,
Clouds are spent and gone.
The wild wind has abated.
The rain is o'er and done;
All around is freshness,
The sunlight streams anew,
Again is earth an Eden
And heaven's vault vivid blue.

"THE STREET OF SIN"
This is one of the strongest programs ever shown in Lacombe at regular prices. Don't miss this one. Emil Jannings—They call him the world's greatest actor this man, Jannings. And they're right! There are none anywhere who has ever contributed such fine portrayals of human beings as did Jannings in "Passion," "The Last Laugh," "The Way of All Flesh" or "The Last

Command? His latest picture is the greatest of them all. Two women loved him—this brutal ruffian king whose fists were scepters of power. And he hounded one—and laughed a whimsical laugh at the other! Bold, powerful, cruel as lightning, soft as moonlight, a picture of gasps, tears, and laughter—that is Emil Jannings' "The Street of Sin." Also a two reel comedy.

Monday and Tuesday Johnny Hines in "HOME MADE"

He thought his mother's jam was the sweetest thing in the world, but a beautiful girl showed him it wasn't. It's a rare feat of entertainment, flavored with fun and peppered with pep, and a surprise dessert that will satisfy your greatest appetite for thrills. You must see Johnny as a ventriloquist—he's got more wises cracks than the mint has coins. And that's only one of the FIVE BIG COMEDY ROLES that he plays in this picture. He'll make you laugh five times heartier than you've ever laughed before.

Coming Nov. 1st, 2nd and 3rd
"The Legion of the Condemned"

this is the companion picture to that great epic "Wings" featuring Fay Ray, an Alberta girl and Garry Cooper. Prices 55c., 35c., 25c.

DON'T TAMPER WITH POSTAGE STAMPS

On July 26th F. Tornowski of Trochu posted a letter at that office bearing an attempt to remove the official cancellation marks. He was arrested and charged with using previously used stamps, two of which bore evidence of an attempt to remove the official cancellation marks. He was arrested and charged with using previously used stamps with fraudulent intent, and also with removing cancelling cancellation marks. On the former charge he was found guilty and fined \$10.00 and costs. On the second charge he was committed for trial at the next District Court at Calgary.

In the District Court at Calgary, on October 10th, Judge Macdonald found Tornowski guilty of removing used postage stamps from mail matter with intent to defraud; also found him guilty of attempting to remove cancellation marks with intent to defraud. Sentence of \$10.00 and costs.

on each charge or thirty days in jail was imposed on Tornowski, and in sentencing him the Judge explained that while there was no doubt of the man's guilt, he was dealing leniently with him because he had only been in the Country a little more than one year. Tornowski paid the three fines totalling \$30.00 and costs and was seriously warned.

A most delightful entertainment was held under the auspices of the Women's Missionary Society of St.

Andrew's United Church on Friday evening. Little Miss Kathleen Green, of Calgary, former Chautauquan, put on the major part of the program, consisting of a play in four acts, interspersed with short humorous selections. Although the program seemed a bit heavy for a child of eleven years, it was extremely well done and the large audience was quite delighted with Miss Green. Local artists assisting with the programme were Mr. Wright and Miss S. Walters, whose piano solos were well received.

a charming duet by Miss H. Barbour and Mrs. John MacDonald and a beautiful vocal solo by Miss Sims.

The Loyal Temperance Legion band will hold their regular monthly meeting on Sunday, Oct. 21st at 3:00 p.m. in the school room of St. Andrew's United Church. Officers are to be elected and working details arranged. All children between seven and fourteen years are welcome to these meetings. Dues are 10c. per year.
